

I have been participating in the Telephone Privacy "Do Not Call" list for Indiana. The previous telephone calls were very disruptive and annoying. These calls used to go on all evening, throughout dinner, while I was in the bathroom, etc. Now since being on the "Do Not Call List" the quality of time at home has improved greatly. I used to receive 2 - 3 calls a night. Now I hardly receive any.

Please do not implement any proposal that would lessen Indiana's Telephone Privacy law protection. Phone solicitors are unwelcome in my home and disruptive to my schedule.
